

TALK TO YOUR DATA AND SAVE YOUR TIME

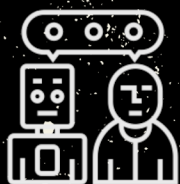

PANDAS AI

WHAT IS THE REVOLUTIONARY TOOL?

Pandas AI is an innovative Python library, designed to augment the abilities of the widely-utilized Pandas library by leveraging generative AI models. Pandas AI enables you to 'talk with your data', bridging the gap between natural language and traditional data science methodologies.

PREVIOUSLY WITHOUT PANDASAI

**CODING
TRAINING
REQUIRED**

**MANUAL
SCRIPTING
LINE BY LINE**

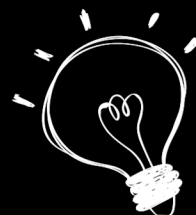

**ADDITIONAL PACKAGES
AND SEARCH ENGINE NEEDED**

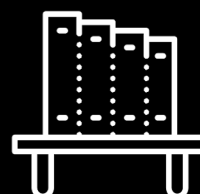

IN THE FUTURE WITH PANDASAI

**SIMPLE
NATURAL
LANGUAGE**

**INTELLIGENT
DATA
PROCESSING**

**ALL IN ONE
PANDASAI**

CONVERSATIONAL

*natural
language*

Instead of typing complex code, send PandasAI natural language commands to get desired results

ACCURATE

Achieve accuracy levels upwards of 99% for data cleaning and Exploratory Data Analysis (EDA) tasks

EASY-TO-APPLY

Effectively address a variety of inquiries without introducing new variables or importing new packages

EFFICIENT

“
300 TO 30
”

Reduce average task completion time from 5 minutes to just 30 seconds.

LIMITATION

- 01 Misinterpret complex or ambiguous query
- 02 Inability of complex model building
